Parenting the Love and Logic Way™

Are you a normal, sometimes frustrated parent? We can help!

Children don't often come with owner's manuals. How then, do parents raise happy, self-sufficient individuals? To assist families with every day parenting challenges, Jewish Family Service and Woodhaven Counseling Associates, Inc. facilitates this unique program, Parenting the Love and Logic Way™.

The Love and Logic™ Approach

Love and Logic™ is a philosophy of raising and teaching children which allows adults to be happier, empowered and more skilled

in their interactions with children. Love allows children to grow through their mistakes. Logic allows them to live with the consequences of their choices. Love and Logic™ is a way of working with children that puts parents and teachers back in control, teaches children to be responsible and prepares young people to live in the real world, with its many choices and consequences.

Who can benefit from Love and Logic™?

It's never too late to begin using the Love and Logic™ techniques regardless of whether the family has a teenager or a toddler. No matter the age of the child, the best time to start Parenting the Love and Logic Way™ is now!!
